

National Center for Research Resource
FY 2006 Funding Strategies

NON-COMPETING AWARDS (TYPE 5)

All Research Project Grants will be funded at 97.65 percent of the 2006 committed level. This reduction will be continued through the remaining outyears.

SBIR/STTR grants will be funded at the full committed levels.

Research Centers, except General Clinical Research Centers and National Primate Research Centers, will be funded at 97.65 percent of the 2006 committed level. This reduction will be continued through the remaining outyears.

General Clinical Research Centers & National Primate Research Centers will be funded at 97.65 percent of the 2005 awarded level, excluding one-time costs. Commitments will be adjusted based upon this new level.

Individual Research Career awards (K01 and K23) will be funded at full committed levels.

Institutional Research Career and Research Training awards may be funded at the full committed level by reducing the number of trainees on the grant.

Research Career Awards and Research Training awards supported through trans-NIH programs will follow the policy established by the Roadmap Implementation Group.

All Other Research Grants will be funded at 97.65 percent of the 2006 committed level. This reduction will be continued through the remaining outyears.

COMPETING AWARDS:

Research Project Grants will maintain the same average cost as FY 2005.

All other competing grants (Centers, Other Research, Training) will be funded at appropriate levels with programmatic and OGM funding recommendations. Divisions will have their overall budgets to guide their actions in this regard.

The [NIH Financial Policy for Grant Awards – FY 2006](#) (NOT-OD-06-025) contains additional information about NIH's funding strategies.
